

GREAT CARE GCI

INSTRUMENTS

The image features a collection of surgical instruments against a green background with diagonal lines. A large, curved white line separates the top text from the instruments below. The instruments include several pairs of forceps with different tip shapes and textures, a pair of scissors with yellow handles, and a stapler with a silver handle and a blue head. The background also shows a close-up of a surgical procedure being performed on a patient's arm, with a gloved hand and surgical instruments visible.
